

PRECISION SORTER

Maintain Quality. Process Faster.

MACHINE SPECS

The GreenBroz Precision Sorter is a revolution in size sorting for your cannabis harvest. Simple to use and gentle on your flower, our Sorter allows you to exponentially speed up your sorting process while maintaining that fine quality your cultivation is known for.

The Precision Sorter is constructed from stainless steel and polyurethane, greatly reducing the chance of any contamination of your flower. The sealed motor combined with the removable HMI digital user interface makes this machine completely washdown ready, ensuring cleanliness compliance anywhere in the world, now, and for years to come.

Faster sorting times combine with reduced human handling to ensure that your product maintains its purity, potency and overall quality.
